

Open Church Wedding

Mr. and Mrs. John David Roach, of Knoxville, Tennessee, announce the engagement of their daughter, Dorothy June, to Michael David Crist, son of Mr. and Mrs. Harold Crist, of Arbovale. Miss Roach is a teacher at Eastern Academy in Norfolk, Virginia, and Mr. Crist is presently serving aboard the U. S. S. Hammerhead, also in Norfolk. The wedding is planned for December 27, 1975, at three o'clock in the afternoon, in the Arbovale United Methodist Church.

Correction

Mr. and Mrs. Richard Mullenax and daughter, Kelly, were omitted from the guest list attending the 35th Wedding Anniversary of Mr. and Mrs. Paul Mullenax.

Mrs. Sam Barlow, Sr., Mrs. Claude Malcomb, Mrs. Arden Killingsworth, and Miss Julia Price visited Sweet Springs Tuesday, December 9, and visited with Margaret Moore, Warren Arbogast, and Moody McNeill.

Surprise Birthday Party

A surprise birthday party was given for Mrs. Eva Galford at the home of her daughter, Bonnie Garretson, on November 27, 1975. The birthday party was given by her daughters, Bonnie Garretson, Shirley Cutlip, Margaret Sheets and son, Donald Galford, Jr.

A beautiful birthday cake baked by Judy Galford, was served to the following:

Genevieve Wilfong, Joan Cutlip and son, Terry, Linda Sharp, son Roger, Shirley Cutlip, children, Larry, Gary, Cheryl, Betty Wilfong and children, David, Eddy, Kevin, Mr. and Mrs. Donald Galford, Jr., Bonnie Garretson and son, Tony, Margaret Sheets, Teddy Dunbrack, Kenny Cohenour, Sam Biggs, David Cain and Donald Galford

Those sending gifts but did not attend were Mrs. Flossie Campbell and Ruth, Polly Cain, Juanita McLaughlin, Ruth Francisco, Mr. and Mrs. Stewey Stuart, Mr. and Mrs. Kenneth Wilfong.

Door prizes were won by Teddy Dunbrack and Linda Sharp.

the log schoolhouse.

We are unable to say when the first school was taught in Frost. A person now living tells us of one being taught there in an old store building before the Civil War. At some later period a one room schoolhouse was built near the location of the present two-roomed house. This was abandoned in 1912 and a modern schoolhouse was erected. In 1923 it was found to be too small to accommodate the pupils who should attend and an additional room was added.

When the Civil War began school was being taught by Miss Mattie Gum, the mother of the late George Gingar, of Huntersville, in a log school house which stood on the

who should attend and an additional room was added.

When the Civil War began school was being taught by Miss Mattie Gum, the mother of the late George Gingar, of Huntersville, in a log school house which stood on the knoll near L. R. Hively's residence. The next building used for school in the Sunset neighborhood was on the hill not far from J. A. Cleeks. The last term taught here was by Enoch H. Moore in the year of 1896 and 1897. By the next winter a new building had been constructed at the present location. It was destroyed by fire a few years ago. The building in which school is taught now, was located on the site of the old one.

The Moore schoolhouse first stood on the east side of the creek at the foot of the Allegheny Mountains.

been constructed at the present location. It was destroyed by fire a few years ago. The building in which school is taught now, was located on the site of the old one.

The Moore schoolhouse first stood on the east side of the creek at the foot of the Allegheny Mountain, a short distance above Coe Beverage's, as the road was there at that time. Later, after the road was changed the schoolhouse of this sub-district was built further up the valley above C. D. Newman's. When it was decided that this structure could not be used any longer the house in which school is taught at this time was built.

The first school taught at Cove Hill near Frost was approximately in 1894 by J. M. Barnett.

Douthards Creek schoolhouse was built in 1910. It has also been used for

The first school taught at Cove Hill near Frost was approximately in 1894 by J. M. Barnett.

Douthards Creek school-house was built in 1910. It has also been used for preaching services and Sunday School.

A one-room building was first at Minnehaha Springs.

It was probably erected twenty-five years ago. The two-roomed building was put up in 1915. W. L. Herold was the contractor.

Homes — The pioneer homes have mostly been replaced by new modern buildings. A telephone line reaches nearly every one. Many of the houses have been provided with water system and light plants.

The only brick residence in the valley is the one where I. B. Moore dwells. Mr. Moore's father had this house built. The man who had the contract burned the brick and did all the work for the consideration of two sorrel horses. The home has been well preserved to this day.

Conclusion — In conclusion I wish to say that Knapp's Creek Community has furnished to the world ministers, college professors, a judge, doctors, lawyers, civil engineers, teachers and people of many professions. Seven teachers have come from Douthard's Creek School alone since 1910.

We are all very much indebted to Rev. Wm. T. Price for the history he recorded and left us. It is to be hoped that the people of each neighborhood will follow his example and keep a record of future events in a more accurate manner than they have in the days past.

History of Knapps Creek Community

Consisting of "The Hills," Frost, Knapp's Creek, and Minnehaha Neighborhoods
Written by Enid Harper,
In 1924

In the eastern part of Pocahontas County, West Virginia, is Knapps Creek which has its source in the Alleghany Mountains about five miles above Frost. Its two branches unite at Frost from which place it continues to flow along the base of the mountains to the place where it empties into the Greenbrier River at Marlinton, a distance of almost twenty miles from Frost. The East fork of the creek is fed by a stream which comes forth out of the rugged mountain side near Paddy's Knob, a peak with an elevation of 4450 feet.

One of the principal tributaries of Knapps Creek of

the Minnehaha neighborhood is Douthards Creek which carries with it the waters of Cochrans and Laurel Creeks. At Huntersville Knapps Creek receives two other streams, Browns Creek from one side and Cummings Creek from the other.

Springs.—Along the valley are numerous limestone springs, the waters of which are cold, an indication of purity. These help to make the creek larger. The first of them is a bold spring gushing out from under a hill near the fine home of S. Gibson. Further down the valley we find the stream called Hill Run near I. B. Moore's which receives water from a number of springs within a half mile. Next is the Mill Run at D. W. Dever's flowing through his farm where fine cattle graze. From here we go on to W. G. Ruckman's

where there is another stream of about equal volume. The source of it is also a magnificent never-failing stream.

Last but not least is the famous Minnehaha Spring on the Lockridge property. The crystal water of this spring is of a healing and medical nature. It has been shipped to various parts of the country.

Origin of Names.—"The Hills" is the hilly region on the northwest of the valley. These are very productive lands and are excellent for fruit and grazing. They were at one time heavily timbered but now only small tracts remain uncut.

The creek from which our good community takes its name was known as Ewings Creek in the earliest land papers but was soon changed to Knapps Creek in honor of a man by the name of Knapp who came into the

...where there is another stream of about equal volume. The source of it is also a magnificent never-failing stream.

Last but not least is the famous Minnehaha Spring on the Lockridge property. The crystal water of this spring is of a healing and medical nature. It has been shipped to various parts of the country.

Origin of Names. — "The Hills" is the hilly region on the northwest of the valley. These are very productive lands and are excellent for fruit and grazing. They were at one time heavily timbered but now only small tracts remain uncut.

The creek from which our good community takes its name was known as Ewings Creek in the earliest land papers but was soon changed to Knapps Creek in honor of a man by the name of Knapp who came into the

valley from Virginia prior to 1749. His report of this country probably led Marlin and Sewell to make explorations in the Greenbrier Valley. At first the name of the creek was spelled N-a-p-s, later it was changed to K-n-a-p-p-s.

While here Knapp lived in a cabin on the west side of the creek about opposite the place where Mrs. P.L. Cleek now resides. It is not definitely known what became of him.

Indians. — There are evidences that the Indians once roamed through the thick forests which covered what is now our beautiful section of country. Pieces of flint have been found by our citizens which were no doubt used by the Red Race. There was an Indian burial ground on a flat above the road a short distance up the valley from I.B. Moore's dwelling. Indications were to the older people that several Indians had been buried here. It has been said that a few relics were found in later years when some excavations were made.

Early Settlers. — Michael Dougherty, a native of Ireland, settled in our valley near where W. G. Ruckman lives about the year of 1770. He was one of the first to occupy the Knapps Creek Region.

The same year Moses Moore of Virginia, came to Knapps Creek. It is interesting to note that he bought the land extending from J. L. Herold's to D. ... English sterling. One of the

famous gun in its day. We are told that one of these guns may be seen at The Pocahontas Times Office. There may be some other hollows along the mountain that received names from men who were not permanent settlers.

Timber and Saw Mills.—
A fine lot of white pine timber stood along the foot of the Alleghany. Nearly all the good trees that grew on the level were destroyed because the settlers needed improved land more than timber. A number of sugar groves were left for the purpose of making maple sugar and molasses.

The mountain timber has been going on the market since 1890. The white pine was cut first. The logs were peeled and floated down Knapps creek and the Greenbrier River to Ronceverte where they were manufactured by the St. Lawrence Manufacturing Company.

Capt. A. E. Smith and James Whiting, who did

been going on the market since 1890. The white pine was cut first. The logs were peeled and floated down Knapps creek and the Greenbrier River to Ronceverte where they were manufactured by the St. Lawrence Manufacturing Company.

Capt. A. E. Smith and James Whiting, who did business under the firm name of Smith and Whiting, had ten million feet of white pine cut each year for a period of six or seven years.

At that time the hardwood seemed to be of little value. During the past fifteen or twenty years it has been cut rapidly, perhaps as much as one hundred and fifty to two hundred million feet have been taken from Knapps Creek and Douthards Creek and some valuable tracts are still standing.

The first saw mills to dot this section were the up and down mills run by water power. If we are rightly informed, there were three of these; one owned and operated by the Moore's at a point about

and fifty to two hundred million feet have been taken from Knapps Creek and Douthards Creek and some valuable tracts are still standing.

The first saw mills to dot this section were the up and down mills run by water power. If we are rightly informed, there were three of these; one owned and operated by the Moore's at a point about opposite the Moore school house, one was on the Lockridge farm where Douthards creek unites with Knapps creek, and the third mill was built by Henry Harper and operated by him and his son Samuel, for a number of years. This last mill continued sawing until about 1890 and was the last mill of its kind to be operated in the community. Sometime during the eighties P.M. Harper sawed lumber on this mill to build his house

where Mrs. E. A. Pritchard now lives.

The first circular saw mill in this neighborhood was brought here from Augusta county, Virginia, for Wise Herold and I. B. Moore. Many people visited the new mill to observe its working.

Grist Mills.—The first mill to grind grain was the one owned by Michael Daugherty on the Mill Run where he settled. Peter Lightner, who was a well known citizen here in 1855, had a mill on the run at D. W. Dever's. Joseph Sharp, a pioneer of Frost, had a where A. A. Sharp now resides, one-half mile from the village.

Henry Harper also had a grist mill which ground wheat, corn and buckwheat. It was located on the farm owned by Harmon Shinaberry. In connection

with the grist mill Mr. Harper had a sawmill which has already been mentioned, a tan yard, and one of the old fashioned tilt-hammer blacksmith shops. The tilt-hammer was run by waterpower. The mill for grinding grain crushed the kernels between two large revolving stones which were brought from Rockbridge County, Virginia. It was not used longer than 1896.

A mill of later years was the one built by Wellington G. Ruckman on the same stream where Michael Daugherty had the first one. Mr. Ruckman did grinding on this mill for a period of eleven years, discontinuing the industry probably twelve or fifteen years ago.

stream where Michael Daugherty had the first one. Mr. Ruckman did grinding on this mill for a period of eleven years, discontinuing the industry probably twelve or fifteen years ago.

The Civil War.—No battles of the Civil War were fought on the territory embraced within the Knapps Creek Community but brave men who have lived here were in the service. Some were valiant soldiers of the Federal Army while others joined the ranks of the Confederacy. Squads of Yankees frequently passed through this section and General Averill, a Union Commander, with his army, camped one night at Frost, marching on the next day to Huntersville.

Establishment of Post Offices—A postoffice was established at the village of

established at the village of
Frost in 1853. Francis
Dever was the first post-
master. In conversing with
the oldest person in the
community, Mrs. Ellen
Buzzard, who was ninety-
nine years of age on June
23, 1924, she says she does
not remember how the
name originated, but the
presumption is that the
name Frost was given to
the office on account of the
high altitude. Early store-
keepers were Francis Dev-
er, Stuart Wade, Samuel
Gibson, and J. B. Hannah.

Before "Uncle Sam" fav-
ored the people with a

Carmel and Westminster
Churches known as Sunset.
Someone suggested this

Wi
eve

Gr

T

(Continued)

name because there was an office directly east of here in Bath County, Virginia, by the name of Sunrise.

Another postoffice which was not established till later years was called Driscol, and derived its name from Col. John Driscol who had much timber cut in this region. D. B. McElwee was the postmaster at Driscol for a number of years. In 1914, largely through the efforts of our highly esteemed physician, Dr. J. B. Lockridge, deceased, a nice hotel was built for the accommodation of tourists and all those seeking a pleasant summer resort surrounded by beautiful mountain scenery. The next year the Allegheny

Lockridge, deceased, a nice hotel was built for the accommodation of tourists and all those seeking a pleasant summer resort surrounded by beautiful mountain scenery. The next year the Allegheny Club House was built. It is also a magnificent building, well located on a hill overlooking Knapps Valley. When these improvements were made the name of the place was changed from Driscol to Minnehaha Springs, an Indian name signifying "Laughing Water."

When mail was first carried to the early established offices it was only brought on Wednesdays and Saturdays. One of the early mail routes was Huntersville to Mill Gap in Virginia.

Roads—The people were very much handicapped in their efforts to travel. Like Daniel Boone when he went

When mail was first carried to the early established offices it was only brought on Wednesdays and Saturdays. One of the early mail routes was Huntersville to Mill Gap in Virginia.

Roads—The people were very much handicapped in their efforts to travel. Like Daniel Boone when he went to Kentucky they had to make the roads when they came to the country. The first known road leading from what is now Virginia into the Knapps Creek Valley came across the Allegheny Mountains just opposite the old Harper Mill. We find from the old land grants made by governors of Virginia where corners were called for on this road which was then known as Knapp's Spur, or the Spur Road. This name was likely given it because it was the road traveled by Mr.

which was then known as
Knapp's Spur, or the Spur
Road. This name was likely
given it because it was the
road traveled by Mr.
Knapp who will always be
honored by the valley that
has been named for him.

While road is now only a
pathway and but little trav-
eled in this age of auto-
mobiles it shows evidence
of having been dug or
graded in a few places
where it leads up a ridge on
each side of the mountain.
For years the people of
Back Creek used it in

Harper Mill bringing their grain to be ground.

The first wagon brought to Pocahontas County was brought over Knapp's Spur Road and was taken up the hollow where Westminster Church now stands and which was known as Ervine Hollow at that time, and on to Clover Lick where it was used.

As the valley improved and fields fenced the road was kept on the Allegheny side the greater part of the way. On account of the shade and ice there in winter parts of it were changed from time to time until the entire road was made on the opposite side

of the valley. The last change was made about forty years ago by two colored men, Jacob Kernel and Andrew Daughterty of Frost.

The State re-graded the road in 1923, making it much wider to accommodate the increased traffic.

Churches—In 1833 Mt. Zion Church in "The Hills" was built. It is a log structure but has been materially repaired and is still used for a house of worship. Previous to the erection of Mt. Vernon Church the people of Upper Knapps Creek attended services at Mt. Zion. Many of them went horseback across the country by the

Thank you...

way of the Mill Run at I. B. Moore's.

Mt. Vernon Church was erected in 1856. A noticeable feature of this building is the good quality of the lumber used. Scarcely a defective spot can be seen in the ceiling. John McElwee and son did the carpenter work. All the lumber was planed by hand at the shop on the land owned by Moses Moore who was a noted Christian character.

Trinity M. E. Church at Frost was dedicated in 1888. The opening prayer was offered by Rev. Wm. T. Price of Marlinton. The dedicatory sermon was preached by Rev. Mr. Niece of Monroe County. His text was taken from Galatians, sixth chapter and second verse: "Bear ye one another's burdens, and so fulfill the law of Christ." Rev. George

Spencer was the pastor in
charge. Other ministers
present were Wm. and O.
B. Sharp, both natives of
Frost.

New Hope Lutheran at
Minnehaha was built in
1893 through efforts of
Henry White, Sr., and his
family who came to Douth-
ards Creek in 1876. Before
building the church they
had occasional services by
Lutheran pastors in their
homes, in nearby churches,
and in schoolhouses. For
some years after the build-
ing of the church the con-
gregation was supplied by
the ministers from the
South Branch Charge of
Highland County, Virginia.
Later it had a pastor of its

Highland County, Virginia.
Later it had a pastor of its
own, but at the present
time it is again supplied by
an occasional visiting pas-
tor. During all this time
there has been a Sunday
School in progress and to
the present time the little
band of Lutherans have
been loyal to the church of
their choice.

The Westminster Pres-
byterian Church was built
in 1903, Rev. G. W. Nickell
was pastor. A few years
after the church was com-
pleted, probably in 1908,
the first Huntersville Dis-
trict Sunday School Con-
vention was held in it with
W. A. G. Sharp, President,
and J. C. Harper, Secre-
tary. In 1923 the first
county convention to be
held in Huntersville District
convened here.

H

after the church was completed, probably in 1908, the first Huntersville District Sunday School Convention was held in it with W. A. G. Sharp, President, and J. C. Harper, Secretary. In 1923 the first county convention to be held in Huntersville District convened here.

Mt. Carmel M. E. Church South was dedicated October 1, 1905, Rev. H. L. Hout, of Roanoke, Virginia, preached the dedicatory sermon, Rev. J. D. Pope was pastor in charge. While digging for the foundation of this church the workmen found some pewter spoons, and other articles which were no doubt at one time the property of William Moore and wife who came here about 1780 and built a home on the bank where the church stands. They were not relatives of other Moores of the county. They lived and died at this home and were buried on the east

at one time the property of William Moore and wife who came here about 1780 and built a home on the bank where the church stands. They were not relatives of other Moores of the county. They lived and died at this home and were buried on the east side of the creek just below the grove of pine trees near the line, separating the land owned by Mrs. E. A. Pritchard and G. M. Sharp.

Schools—We do not boast of any high school in our community at this writing for reason that the settlement is a scattered one, but we are proud of the progress the schools have made since the age of
